

TONY FRAZIER

CHIEF EXECUTIVE OFFICER

Tony Frazier is an accomplished operating executive and corporate board member with more than 30 years of leadership experience at the intersection of commercial space, national security, and data analytics.

As CEO of Leolabs, Tony is focused on advancing the company's vision to be the leading mission partner for persistent Orbital Intelligence that preserves the U.S. and Allied advantage in space and fosters the growth of the global economy. His leadership is devoted to enabling military space commands, civil government agencies, and commercial operators to confidently detect, track, characterize, and respond to threats in space.

Tony's career is marked by a strong commitment to innovation and mission-driven outcomes. At Maxar Technologies, Tony was the Executive Vice President and General Manager of Earth Intelligence, leading a 1,200-person team to shape and execute programs of record across the U.S. Government and with more than 60 partner nations in support of military and intelligence missions. During his 13-year tenure, Tony helped lead the geospatial intelligence community through a period of significant adoption and technological advancement.

Earlier in his career, Tony led teams at Cisco Systems and Infor, where he built collaborative environments that fostered innovation. He is a passionate advocate for leveraging technology to solve complex global challenges and is dedicated to driving solutions that enhance stability and transparency, resilience, and operational excellence.

Tony holds a B.S. in Systems Engineering from the University of Pennsylvania and an MBA with distinction from Harvard University. He currently serves on the boards of Iridium Communications, Auria Space, the Intelligence and National Security Alliance, the Intelligence and National Security Foundation, and the Network for Teaching Entrepreneurship. Tony is also an Advisor for Mission Fulfilled 2030 and an Executive Mentor for the Patti Grace Smith Fellowship program, where he supports initiatives that champion diversity and empower the next generation of national security leaders.
